

What Austin's students are saying...

**“Garrett’s social skills have also improved, due in large part to Austin Anderson’s staggering amount of patience and willingness to work with Garrett and bring him into a team environment.”**

**“Austin tells me all the time that in order to learn you have to get your hands dirty. Austin is not afraid to let me practice with his horses and make mistakes. I have worked with other trainers who think that you learn by watching but Austin knows that learning is a hands-on process. Every mistake I make is a learning experience that makes me a better horse person. Austin uses every minute of every day as a teaching experience. He respects everyone’s unique personality and I have finally found a trick riding instructor that respects what I have to offer.”**

**“Austin is a great entertainer as well as a teacher, he makes sure his students don’t just know how to execute the tricks but have the knowledge and foundation to become good horsemen and performers.”**

**"I had a blast and really did learn a lot. It definitely was worth it!"**
